BACHELOR’S DEGREE STUDIES

OUR OFFER

SGH offers four undergraduate programmes in English:

- Global Business, Finance and Governance
- International Economics
- Management
- Quantitative Methods in Economics and Information Systems

GENERAL SKILLS AND COMPETENCES

If you graduate from SGH, you will be able to:

- speak two foreign languages fluently
- work in multicultural and international environments
- communicate with specialists in the field in a professional manner
- take the initiative and become self-reliant in business activity
- effectively organise work in a team
- demonstrate your analytical, organizational and negotiating skills

BASIC INFORMATION

Programmes in English are available in full-time mode only.

The schedule is flexible – students choose their class times and lecturers.

The duration of each programme is three years (six semesters).

Each programme is worth 180 ECTS in total. Estimated number of hours is 2050.

When applying for admission to undergraduate studies in English, the candidate needs to choose the particular programme during the registration process.

The complete list of learning outcomes, and major and minor courses can be found at www.sgh.waw.pl/curricula
The first-cycle studies in Global Business, Finance and Governance at SGH Warsaw School of Economics provide both the knowledge and the skills necessary for operating in the environment of international business and finance with its unique set of issues and challenges. The studies enable understanding of the global dynamics characterising present day trade and markets and how they affect both individual organizations and national economies. They underline the demands of transnational cooperation and marketing which are faced by organizations operating on an international scale. The studies also help to develop the skills necessary for performing essential financial and marketing analyses as required in business, governmental and non-governmental organizations.

The programme aims to prepare its students for entry level and junior specialist positions in financial, sales, logistics and marketing departments of business and non-business organizations including NGOs, as well as central and local government entities. It also provides the theoretical and methodological basis for further education at the graduate level.

**Benefits**

- Become knowledgeable in the fields of economics, finance, management sciences, including international finance and capital markets, basics of finance and accounting in international transactions, as well as international management and marketing practices.
- Gain an appreciation of business and economic problems at international and national level, as well as of factors contributing to international competitiveness of countries and companies.
- Learn methods of data collection and analysis applied in the field of Global Business, Finance and Governance and how to use them in studies of the world economy and national economies.
- Use the acquired knowledge to conduct international transactions and logistics operations, run varied business projects and research tasks, and solve simple problems concerning entities involved in international activities.

**Obligatory Courses**

- Accounting
- Basics of Law
- Business Cycle Analysis and Foreign Market Research
- Capital Market
- Dimensions of Competitiveness
- Economic and Social Policy
- Economic Geography or Economic History
- European Integration or Theory of the State
- Finance
- Global Marketing
- International Economics
- International Finance
- International Project Management
- International Trade Law
- Internationalization of the Firm
- Introduction to Business Information Systems
- Macroeconomics
- Management or Management and Marketing
- Mathematics
- Microeconomics
- Multinational Firms in the World Economy
- Negotiation Techniques
- Philosophy or Sociology
- Statistics
- Sustainable Development

**Available Specializations**

- Global Development and Governance
- International Business
- International Finance

**Double Degree Programme Available**

with the Kyungpook National University (Daegu, South Korea) in the field of Economics and International Trade.
INTERNATIONAL ECONOMICS

The first-cycle studies in International Economics at SGH Warsaw School of Economics provide the knowledge and develop the skills necessary to start a career in diverse entities, including central and local government administration, public institutions and NGOs, as well as manufacturing and service companies operating internationally.

The programme also prepares its students to undertake independent business activities, including those conducted on foreign markets. It also provides the theoretical and methodological basis for further education at a graduate level.

BENEFITS

- Gain general knowledge in the field of economics and related sciences, including finance, accounting and international transactions, as well as management and international marketing.
- Learn about world economy and the economy of the European Union, as well as about a wide range of entities focused on international operations both in the public and the private sector.
- Understand issues connected with international competitiveness and become aware of the significance of international determinants of the position of countries and companies.
- Know how to apply the acquired knowledge in a practical manner in order to solve problems concerning entities involved in international activities and accomplish research tasks relating to economic processes at the global and national level.
- Learn methods of data collection and analysis applied in the field of International Economics and how to use them in studies of the world economy and national economies.

AVAILABLE SPECIALIZATIONS

- Economics of Central and Eastern Europe
- International Business Management

DOUBLE DEGREE PROGRAMME AVAILABLE

with the Kyungpook National University (Daegu, South Korea) in the field of Economics and International Trade

www.sgh.waw.pl/admission
The first-cycle studies in Management at SGH Warsaw School of Economics provide theoretical and practical knowledge in the field of management and related sciences concerning the nature, regularities and problems connected with the operation of an organization.

The studies develop skills necessary to start a career as a specialist or middle manager in a variety of organizations, including business entities, non-profit organizations, public administration units and local self-government at various levels. They also prepare their students for conducting one’s own business. Graduates of the programme may also continue their education at a graduate level.

**Benefits**

- Acquire theoretical basis of management sciences, economics and complementary disciplines.
- Be able to identify, understand and solve problems related to the basic functions and processes of management: planning, organizing, motivating, monitoring and coordinating.
- Be able to perform basic management functions and oversee processes in economic and administrative organizations, as well as to evaluate work performed by others in a well-balanced and competent manner.
- Understand complex processes and phenomena occurring in organizations and in their environment.
- Learn to formulate project problems and to plan and control projects.

QUANTITATIVE METHODS IN ECONOMICS AND INFORMATION SYSTEMS

The first-cycle studies in Quantitative Methods in Economics and Information Systems at SGH Warsaw School of Economics provide basic knowledge in the field of economics, management and finance, as well as the canon of knowledge related to quantitative methods in economics and information systems. They include practical courses in the area of statistical and econometric analyses, decision-making, information technology and demography.

The programme aims to develop competencies necessary either to manage one’s own business, or to start a career in business entities and institutions where it is essential to use mathematical, statistical, econometric and IT tools. It also provides the theoretical and methodological basis for further education at a graduate level.

BENEFITS

- Learn basic theories and their applications related to the following educational content: mathematics, in particular mathematical analysis and linear algebra; probability theory and mathematical statistics; research design and statistical analysis; demography; mathematical economics; econometrics; operational research; finance and insurance mathematics; computer programming; design of information systems; databases.

- Become knowledgeable about mathematical, statistical and econometric methods and tools which are necessary to analyse economic and social phenomena on a micro- and macroeconomic scale.

- Be able to solve macro- and microeconomic problems using various analytical tools, and to use linear algebra in statistics, econometrics and mathematical decision-making models, as well as to design and conduct statistical research.

OUR OFFER
SGH offers five graduate programmes in English:
- Advanced Analytics – Big Data
- Finance and Accounting with ACCA qualification
- Global Business, Finance and Governance
- International Business
- International Tourism, Hotel Industry and Leisure Services

MASTER’S DEGREE STUDIES

GENERAL SKILLS AND COMPETENCES
If you graduate from SGH, you will be capable of:
- planning and executing research tasks
- professional communication with specialists in the field, as well as with people of different social or professional background
- working in a multi-cultural team, organising its work and leading the team
- effective communication and negotiations among cultural differences
- applying the acquired knowledge and problem solving abilities in new or unfamiliar environments within broader (or multidisciplinary) contexts related to your field of study
- expanding your interdisciplinary knowledge through self-study

BASIC INFORMATION
Programmes in English are available in full-time mode only.
The schedule is flexible – students choose their class times and lecturers.
The duration of each programme is two years (four semesters).
Each programme is worth 120 ECTS in total. Estimated number of hours is 960 (990 for Finance and Accounting).
When applying for admission to graduate studies in English, the candidate needs to choose the particular programme during the registration process.
The complete list of learning outcomes, and major and minor courses can be found at www.sgh.waw.pl/curricula

www.sgh.waw.pl/admission
The second-cycle programme in Advanced Analytics – Big Data at SGH Warsaw School of Economics provides advanced knowledge and competencies in the area of extraction and analysis of data from variety of sources.

The programme aims to prepare its students for the position of advanced data analysis specialist in manufacturing companies, banks, insurance and telecommunications companies, public administration and research centres specializing in advanced data analytics. It also provides the theoretical and methodological basis for conducting research, as well as further education at the doctoral level.

**BENEFITS**

- Become knowledgeable about computer science in the area of extracting, clearing, storing and processing of structured and unstructured data.
- Learn how to extract information from complex data structures and how to represent them in computer systems, and how to formulate and interpret results of data analysis.
- Gain knowledge regarding mathematical, statistical and computer methods and techniques of data analysis required in social and economic problem-solving.
- Be able to extract data from a variety of sources including databases, text files, multimedia files, social networks, sensor data, geolocation data.
- Know how to query SQL and non-SQL databases alike, prepare data for analysis, build models for data analysis using a variety of mathematical, statistical and computer science tools and formulate hypotheses and opinions using the models.
- Design representation research and conduct statistical analysis used in studying economic processes and phenomena.
- Analyse multidimensional data and apply the methods of multidimensional analysis in business and economic analyses.
- Get an appreciation of how the quantitative approach can be used to describe economic processes, social interactions and business issues.

The second-cycle studies in Finance and Accounting at SGH Warsaw School of Economics Specialist knowledge of the financial management of business entities, including financial institutions, with particular interest in the determinants of managerial decisions based on results of financial analyses and research.

The competencies developed in the course of the programme enable its graduates, after a relevant internship, to work as experts or managers in a given field of finance or accounting. The studies also prepare students for self-employment and for obtaining certified or licensed qualifications in Poland and abroad. They also provide the basis required for further education at the doctoral level.

Owing to the cooperation between our university and EY Poland, it is possible to obtain not only a Master's degree in Finance and Accounting from SGH Warsaw School of Economics, but also the ACCA qualification – an internationally recognised professional qualification.

**BENEFITS**

- Gain an appreciation of the impact of legal regulations, including tax regulations, on conducting business, as well as of the impact of the monetary policy on financial markets and business entities, including financial institutions.

- Understand and know how to apply advanced principles of financial accounting, as well as management accounting instruments, including cost accounting.

- Learn how to draw up financial plans of business entities, make thorough financial analyses, including those based on management accounting instruments, as well as how to formulate conclusions and recommendations accordingly.

- Know how to combine financial issues with other business aspects in your analysis, for instance marketing or management, in order to calculate both the investment effectiveness and the cost of financing, together with determining the optimal investment portfolio or sources of financing, and to assess the level of financial risk and formulate conclusions and recommendations based on your analyses.

**OBLIGATORY COURSES**

- Accountant in Business
- Advanced Financial Accounting
- Advanced Financial Reporting under IFRS
- Advanced Financial Strategies
- Advanced Management Accounting
- Advanced Performance Management
- Bank Management
- Business Ethics
- Business Law
- Corporate Governance
- Cost Accounting

ADMISSIONS TO STUDIES IN ENGLISH

ADMISSIONS STEP BY STEP

1. Create an account in the on-line registration system, fill in all the required fields, upload your photograph and pay the application fee.

2. Wait for the results of the qualifying procedure in the registration system – if you are invited to studies…

3. … bring all the required documents to SGH and receive your decision on admission.

Candidates are admitted to studies in English based on the order of their registration in the candidate system and the verification of the submitted documents.

Please note that at SGH:

- studies in English start only one a year – in October;
- next admission procedure will start on 9 May 2019;
- studies in English are available only as full-time programmes.

REQUIRED DOCUMENTS

Once you are invited to studies in English at SGH, please bring with you the following documents:

1. Signed application form printed from the registration system
2. ID card or passport
3. One current ID photograph
4. Educational document entitling you to apply for admission to studies:
   - candidates for first-cycle studies should submit a maturity certificate, or a secondary-school leaving diploma, or an equivalent document together with a transcript of grades;
   - candidates for second-degree studies should submit an academic degree diploma and a diploma supplement.

www.sgh.waw.pl/admission
Document confirming the knowledge of English, e.g.:
- a Polish maturity exam in English at an extended level with a result of at least 70%;
- an International Baccalaureate diploma or European Baccalaureate diploma;
- a certificate of English at B2 level or higher;
- a secondary school leaving certificate issued by a school where English is the language of instruction;
- an academic degree diploma in English philology or applied linguistics, or any other programme where English is the sole language of instruction.

If your educational document was issued by a non-Polish institution, it should also be:
- legalised or endorsed with an apostille – not applicable in the case of documents issued in EU, EFTA and OECD member states, as well as IB and EB diplomas;
- translated into Polish by a certified translator – not applicable in the case of IB diplomas. Please note that SGH may only recognize certified translations done by sworn translators registered in EU, EFTA or OECD member states;
- nostrified by a Polish Education Office – the requirement applies only to foreign secondary-school certificates other than: IB and EB diplomas, documents issued in EU, EFTA and OECD member states, as well as in China, Belarus, Ukraine and Libya.

For detailed requirements regarding foreign documents, please go to [www.sgh.waw.pl/admission](http://www.sgh.waw.pl/admission)

**INTERNATIONAL CANDIDATES**

If you are a non-Polish national and wish to study at SGH, please contact the Promotion and Admissions Office for detailed information concerning the terms of admission and the complete list of required documents.
WHY CHOOSE SGH?

LEADER IN ECONOMIC EDUCATION

SGH Warsaw School of Economics is the leading academic institution in economics and business in Poland. The quality of education gained at SGH is widely recognised by employers, who seek to recruit its alumni.

FOREIGN LANGUAGES

SGH Centre for Foreign Language Teaching (Polish: Centrum Nauki Języków Obcych; CNJO) offers high quality language courses in English, German, Russian, Spanish, French and Italian, as well as Polish for foreigners. The courses are focused on business-related topics, including current socio-political and economic issues.

The Centre has its own library and reading room at its disposal, containing dictionaries, thesauruses, and course books. Additionally, the CNJO media-library offers audio-visual aids for individual learning.

SPORTS AT SGH

Physical Education and Sports Centre (in Polish: Centrum Wychowania Fizycznego i Sportu; CWFiS) conducts PE classes. The PE offer includes aerobics, athletics, body-building, Callanetics, Pilates, core training, partner dancing, boxing, karate, basketball, football, futsal, handball, volleyball, tennis, nordic walking, swimming, and sailing.

If there are any free places available, you may register for additional classes in order to learn new sport or increase your physical activity under the watchful eye of a trained professional.

Students may also participate in sport camps during winter and summer semester breaks. Apart from the above mentioned classes, our staff also conducts training sessions within many divisions of the SGH Club of Students’ Sport Association, affiliating nearly 300 students.

VIBRANT ENVIRONMENT

At SGH, various events take place almost daily, organised by students and staff alike. Everyone will find something to enjoy: meetings with the Nobel prize winners, presidents of multinational corporations, foreign researchers, members of the Polish government and state officials, politicians, media personalities and EU representatives.

ACADEMIC STAFF

- Approximately 800 research-and-teaching and teaching fellows, including 87 professors
- practitioners, researchers, experts on the media, authors of specialised reports
SGH in Rankings

- in the Global Masters in Management ranking by The Financial Times, SGH was ranked among the best European economic universities worldwide;
- in the 2018 ranking by Perspektywy Education Foundation, SGH ranked 1st among the economic universities in Poland; three of SGH programmes – Economics, Finance and Accounting, and Management – also took top three positions in the ranking of economic programmes category; among Polish universities in general, SGH was ranked 12th;
- in the 2018 ranking by Perspektywy Education Foundation CEMBA and MBA-SGH programmes took the 1st and the 7th place, respectively;
- in the 2016 ranking by Rzeczpospolita, a Polish newspaper, the SGH was ranked first as the university with the highest number of alumni who became presidents of the largest Polish companies.

Accreditations and Quality of Education

We are a member of the following international organisations and networks:

- CEMS
- PIM
- EFMD
- EUA
- CEEMAN
- EUCEN
- PECSA
- EDAMBA

We are accredited by the following institutions:

- ACCA
- AMBA
- IQA (CEEMAN)
- CeQuInt

We offer certificates:

- SGH&CIMA Certificate in Business Accounting (CBA)
- SGH&CIMA Diploma in Management Accounting (DMA)
- SGH & CIMA Advanced Diploma in Management Accounting (ADMA)

SGH is the only Poland-based academic member of CEMS (SGH administers CEMS Master’s programme in International Management) and the only Poland-based member of PIM (Partnership in International Management) – the largest international consortium of leading international business schools.
SHAPE YOUR FUTURE

STUDIES AND BUSINESS

It is only natural that SGH, being a leading business economic university in Poland, operates in close partnership with numerous business entities. This cooperation applies not only to education and research, but also to issues connected with managing the institution.

Owing to the cooperation with our partners, SGH students may choose from a wide range of work placements and internships available during their course of study. It is also much easier for them to find employment in esteemed companies.

SGH partners also organise numerous workshops, lectures, and meetings at our University, which enable our students to meet with actual business practitioners. SGH also organises study visits in companies and manages various research projects and conferences. As a part of the partnership, we also develop SGH’s infrastructure and know-how in the field of management and administration of our institution.

Due to cooperation with the members of SGH Corporate Partners Club, students may take part in Studying Practically programme that offers courses organized by SGH faculty members together with business partners. Apart from special semester-long courses, the SGH Partners also hold workshops and meetings for students.

http://firma.sgh.waw.pl/en

CAREER DEVELOPMENT

SGH Career and Alumni Centre strives to advance the careers of the past and present SGH students. The Centre is also responsible for shaping and developing relations with SGH alumni, as well as for managing the SGH Career Portal – a platform for communication between prospective employers on the one hand and students and alumni on the other, providing up-to-date work placement, internship and employment offers, as well as valuable information concerning, among others, recruitment process, job looking, in-service training and preparation of application documents. The Portal also facilitates the consultation process with the SGH career counsellor.

www.kariera.sgh.waw.pl

ESTEEMED ALUMNI

Both SGH alumni and staff have been actively involved in shaping the economic and public spheres in Poland and Europe alike. Some of the most noteworthy examples include a former Polish prime minister and deputy prime ministers, the majority of ministers of finance after 1989, the first Polish commissioner in the European Commission, two presidents of the National Bank of Poland, members of the Monetary Policy Council, presidents of the Polish Stock Exchange, chairpersons and members of the Polish Financial Supervision Authority, government experts, advisors, as well as specialists serving the European Union, other European institutions, and the UN.
STUDY INTERNATIONALLY

INTERNATIONAL EXCHANGE

SGH participates in international exchange programmes for students and staff alike. Every year, nearly 500 SGH students complete parts of their study programmes abroad, and an almost equal number of foreign students study at SGH, out of which about 300 students are participants of the Erasmus programme. At present, SGH exchanges students with over 300 universities across the world.

DOUBLE DEGREE PROGRAMMES

SGH students may participate in Double Degree Programmes which enables them to obtain two academic diplomas in a single course of study. At present, SGH has 11 partner universities from the following countries: the Czech Republic, France, Germany, Italy, Portugal, Switzerland, as well as South Korea. Qualifications to DDP programmes at Bachelor’s level takes place in the beginning of the second year of studies.

Qualifications to DDP programmes at Master’s level are conducted before the beginning of studies at SGH.

- In spring: Berlin, Mainz, Duisburg.
- In August/mid-September: the remaining Master’s DDPs.

POLISH-GERMAN ACADEMIC FORUM

Deutsch-Polnisches Akademikerforum is co-organised by SGH and two German universities: Johannes Gutenberg Universität Mainz and Universität Duisburg-Essen. The programme is available at Bachelor’s studies.

SGH-CIMA PROGRAMMES

SGH, in collaboration the Chartered Institute of Management Accountants (CIMA), offers interdisciplinary programmes in Polish and English available at the Bachelor’s and Master’s levels. The programmes prepare students to take up better-paying positions in finance and accounting within international organizations.

The SGH&CIMA Certificate in Business Accounting (CBA) is offered at the Bachelor’s level, while the SGH&CIMA Diploma in Management Accounting (DMA) and SGH &CIMA Advanced Diploma in Management Accounting (ADMA) are offered at the Master’s level.

CEMS MIM PROGRAMME

CEMS Master’s in International Management is a one year programme aimed at educating future leaders of international, multilingual and multi-cultural world of business. The programme is conducted by CEMS, the Global Alliance in Management Education comprising 31 business schools, 71 corporate and 7 social partners. The programme enables its students to obtain the CEMS diploma simultaneously with the SGH one. In 2018, the programme was ranked at 9th place in the Financial Times ranking “Global Masters In Management”.

SGH is the only university in Poland offering the CEMS MIM programme. In the academic year 2016/2017, SGH was named the CEMS School of the Year.
SEE YOU AT SGH!

Our next Open Day will take place in March 2019. The activities include:
- lectures and workshops
- presentation of our educational offer
- SGH campus tour
- presentation of the admission procedure
- meetings with SGH students
- and so much more!

If you cannot join us in March, but wish to visit SGH at a different time, please do not hesitate to contact the Promotion and Admissions Office – we will be happy to show you around and answer any questions you might have.

Where to find us:
- SGH Main Building, room 37
- phone: +48 22 564 77 77
